

# Practical Accessibility Training for Higher Education

Deepen accessibility knowledge across your institution with the Level Access Academy. Our flexible, skill-based training solution offers a broad catalogue of live and self-paced courses, including learning paths tailored for specific roles. We provide the education your institution needs to meet Americans with Disabilities Act (ADA) requirements and empower every student.

# Tailored learning for lasting compliance

Consistently meeting ADA requirements can be challenging, especially when your digital content is created by different teams with varying levels of accessibility experience. The Level Access Academy is specifically designed to help professionals throughout your institution support long-term compliance by applying accessibility best practices in their day-to-day work.

Courses range from introductory to advanced, meeting learners where they are to drive deeper engagement and knowledge retention.

## Real-world problem solving

Training enriched with real-life examples focuses on learning through everyday tasks. Practical courses empower learners to integrate accessibility into their daily responsibilities, streamlining processes.

## Comprehensive course library

Courses cover a wide range of digital accessibility topics, from legal requirements to best practices for web, software, and document accessibility. Role-specific learning paths are available for designers, developers, content creators, and other key functions.

## Seamless integration

Effortlessly integrate courses into your Learning Management System (LMS) to streamline training delivery with SCORM files available for purchase.

# Flexible learning formats that fit your institution

From self-paced, online courses to live and interactive sessions with experts, the Level Access Academy offers a variety of training options to meet your institution's needs.

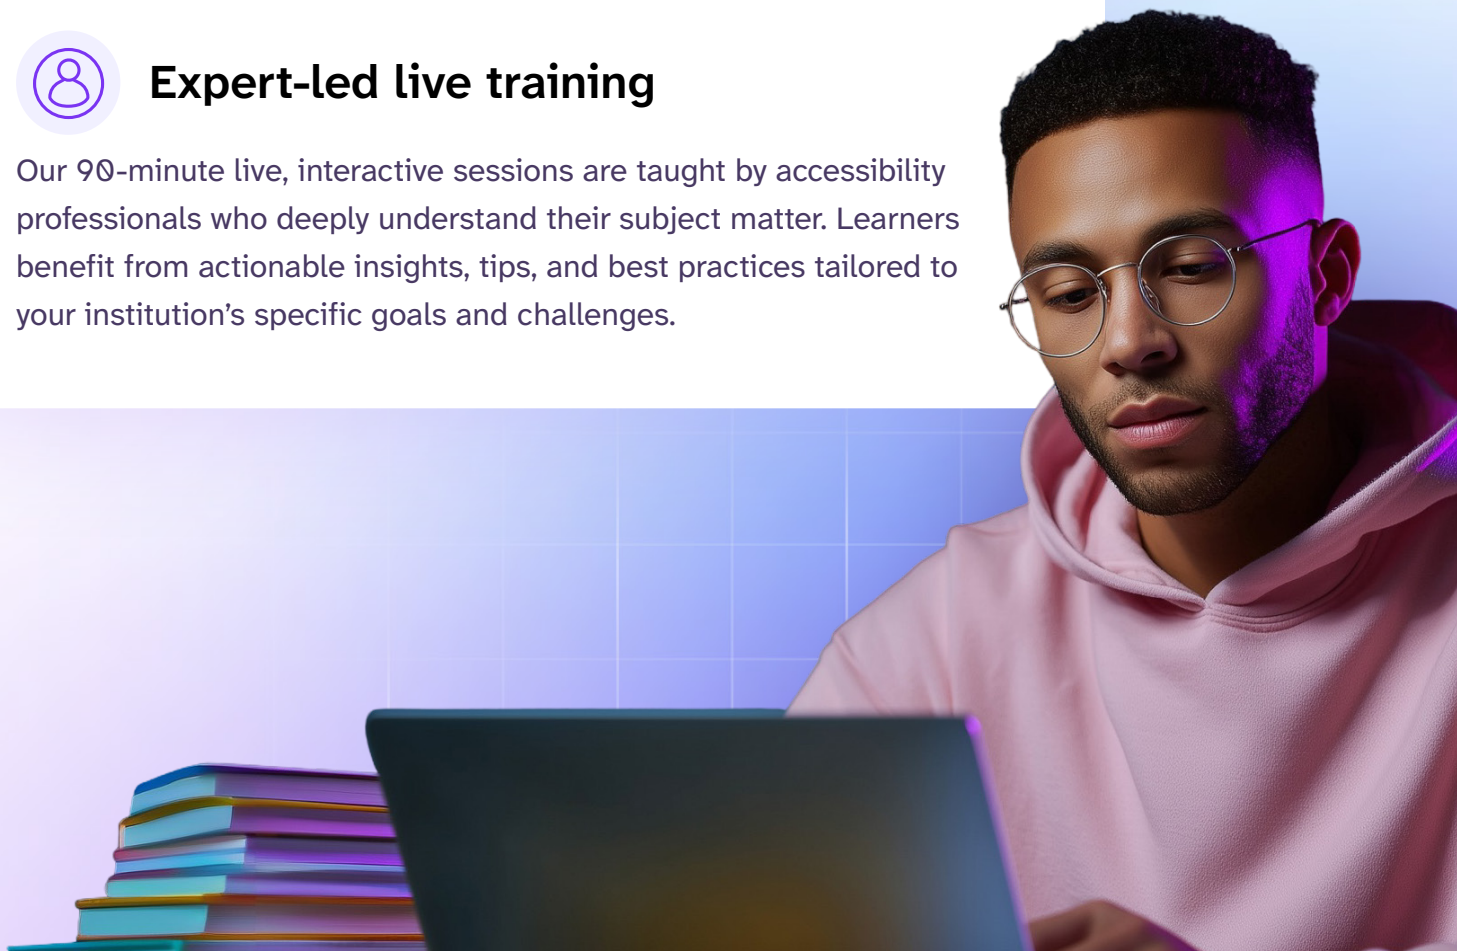

## On-demand learning

Self-paced courses are available to learners whenever they need them, so they can align training with their individual schedules and preferences. This scalable approach to learning helps support consistent accessibility adoption across your institution.

## Expert-led live training

Our 90-minute live, interactive sessions are taught by accessibility professionals who deeply understand their subject matter. Learners benefit from actionable insights, tips, and best practices tailored to your institution's specific goals and challenges.

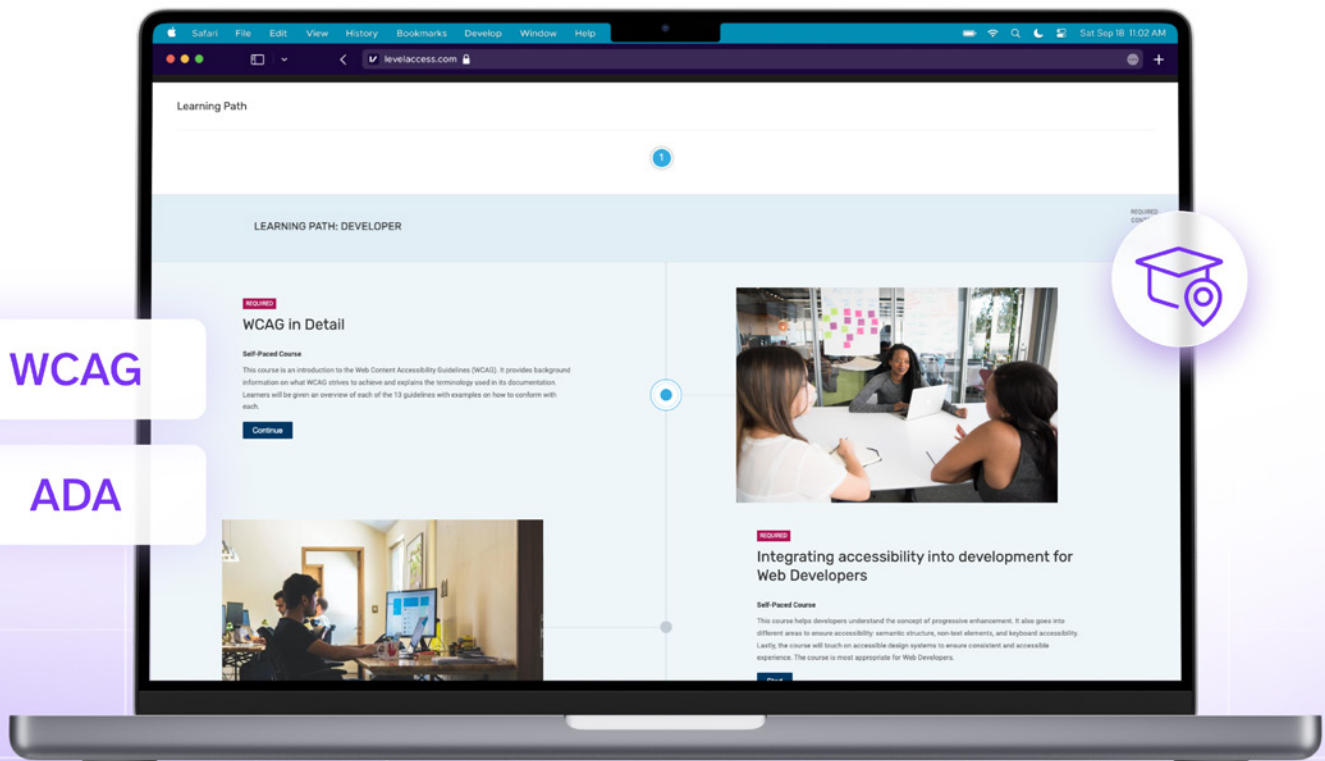

# A holistic set of learning management tools

Develop a plan, promote course completion, and deepen knowledge retention with robust reporting tools and motivating features.

- ✓ Monitor progress with organization-wide and individual reporting.
- ✓ Keep learning on track with timely alerts.
- ✓ Celebrate success with course completion badges and certificates learners can share on LinkedIn.

# Level up your accessibility training

Ready to empower teams to meet consistent accessibility standards—mitigating compliance risks and elevating every student's experience? Contact our team today to learn more about how tailored training through the Level Access Academy can drive lasting accessibility progress for your institution.
