

End-to-End Accessibility for State and Local Governments

Mitigate legal risk and accelerate digital transformation with a complete accessibility solution. Level Access combines an AI-powered platform with the deepest bench of accessibility subject matter expertise, empowering state and local governments to comply with regulations—including Title II of the Americans with Disabilities Act (ADA)—while modernizing digital services.

Centralize and scale digital accessibility

Streamline compliance across departments, stay ahead of changing regulations, and maximize the impact of your accessibility efforts with Level Access.

Our solution supports the three pillars of a sustainable digital accessibility program:

Audit & Test:

Gain actionable insight into the issues impacting your ADA Title II compliance status with automated scanning and monitoring, plus manual audits by experts.

Build & Fix:

Swiftly address issues impacting usability and compliance with AI-powered prioritization, while leveraging integrated workflow management tools to streamline fixes. Instantly address common errors at scale with automated remediation technology.

Governance & Reporting:

Stay on track to achieve your accessibility goals with powerful reporting and guidance from the industry's most experienced team.

The Level Access Platform

The Level Access Platform provides a centralized hub for tracking and managing accessibility at scale, helping you unify compliance efforts across digital assets, agencies, and even districts:

- ✔ Maintain a system of record to document overall accessibility progress, along with progress for individual digital properties.
- ✔ Streamline remediation by embedding accessibility into developers' existing workflows with powerful integrations. Leverage AI that groups and de-duplicates recurring issues to reduce noise and enable faster, scalable fixes.
- ✔ Prioritize high-impact work with AI-powered insights that turn monitoring and auditing data into clear, actionable takeaways.
- ✔ Get instant, context-aware answers to accessibility questions with the Ask Level AI chatbot, so you can keep projects moving, without waiting for specialists.

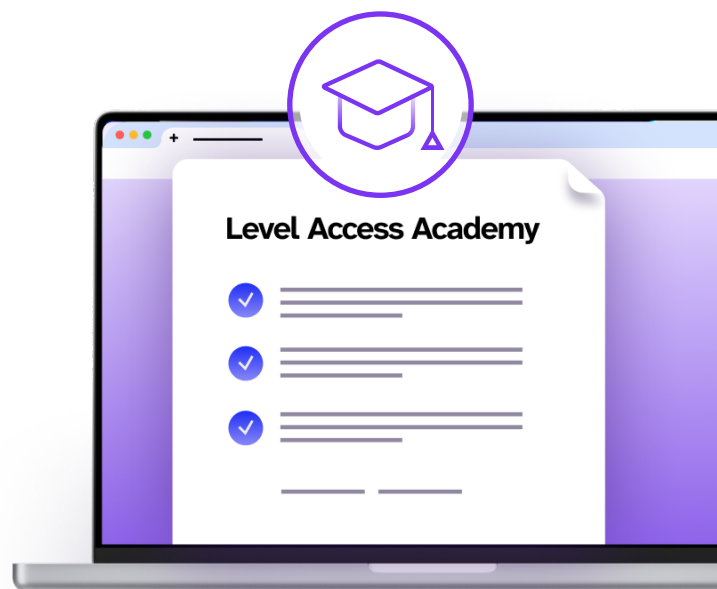

Expert services

From manual auditing to practical guidance from legal and technical experts, we help you confidently navigate the nuances of regulatory compliance and optimize your resources.

- ✔ Gain clarity on your compliance status with actionable audits by professional testers, including people with disabilities.
- ✔ Understand your compliance obligations and how to meet them with support from experts on digital accessibility law.
- ✔ Troubleshoot complex issues in live consultations with our team.
- ✔ Receive support creating and implementing organization-wide accessibility policies that align with state and local IT mandates, including embedding accessibility into procurement requirements for vendors.

Level Access Academy

Build accessibility expertise within your organization with the Level Access Academy—on-demand and live training designed for real-world challenges. With role-based courses for all skill levels, Academy equips every team with the knowledge needed to reduce legal risk and improve citizen experience.

Level Access: the complete solution, built for scale
