

Why Choose a FedRAMP Authorized Accessibility Partner?

Federal agencies must adhere to **Section 508**, which requires that technology is accessible to people with disabilities. **This applies to:**

External Assets	Internal Assets
<ul style="list-style-type: none"> Websites and Web Content Apps Client Portals 	<ul style="list-style-type: none"> Employee Portals Intranet Online HR Forms

...but a lot of this content contains **SENSITIVE DATA**.

How can you trust a third party to help keep you accessible while keeping this data secure?

Only trust your sensitive data to a vendor who employs security controls to maintain your data's **Confidentiality, Integrity, and Availability**

- ✓ Data encryption
- ✓ Strict access controls with customer SSO capabilities
- ✓ Data segregation between customers
- ✓ Screenshot capture prevention
- ✓ Strong Multi-Factor Authentication
- ✓ 3-level data redundancy

The only way to ensure your sensitive data is secure with any vendor is to select one who is **FedRAMP Authorized**

What is FedRAMP? The Federal Risk and Authorization Management Program (FedRAMP) is a government program designed to streamline the adoption of cloud products and services into the federal government by emphasizing security and the protection of information.

14 applicable laws and regulations

19 standards and guidance documents

One of the most rigorous software-as-a-service certifications in the world

Why work with a FedRAMP Authorized Cloud Service Provider (CSP)?

FedRAMP Authorized CSPs must conduct regularly scheduled system maintenance, create business continuity and contingency plans, and meet rigorous security protocols.

This translates into benefits for YOU:

Gain Peace of Mind

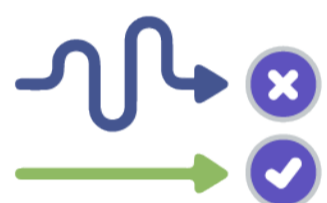

Ensure your data is protected, thanks to a strict, standardized approach to data security

Save Time and Resources

Avoid the expense and hassle of conducting security assessments on vendors because you know that FedRAMP authorization includes the necessary due diligence

Streamline Procurement Processes

Fast-track project approvals through procurement by pre-selecting a FedRAMP Authorized vendor

Why is digital accessibility important?

Designing and maintaining inclusive digital experiences will:

Satisfy Legal Obligations

- **Section 508 of the Rehabilitation Act** requires government agencies and contractors have accessible technology. This applies to both public-facing and internal digital assets.
- The **Americans with Disabilities Act (ADA)** requires that companies provide accessibility in spaces of public accommodation. This is generally seen to include a company's websites, apps, electronic documents, and other digital assets.

Improve User Experience

- Streamline user flows and make information easy to locate
- Eliminate clutter, barriers, and points of confusion

Meet Diversity, Equity & Inclusion Initiatives*

67%

of job seekers consider workplace diversity an important factor when considering employment opportunities.

Over two-thirds of executives rate diversity and inclusion an important issue.

75% of organizations with frontline decision-making teams reflecting a diverse and inclusive culture will **exceed their financial targets.**

We put the AMP in FedRAMP

- AMP is the only Accessibility Management Platform with FedRAMP Authorization
- AMP gives organizations the ability to efficiently build, test, and maintain accessible systems which, in turn, helps them to comply with [Section 508 of the Rehabilitation Act](#)
- FedRAMP Authorization demonstrates Level Access's commitment to data security for customers
